

DEPUTY MINISTER ENGLISH GIVES VERY INTERESTING ADDRESS

At a meeting of the Council for Municipal Affairs of Blackfoot, Bow Valley, Shepard, Springbank, Grass-wood, Keena and Saddlebrook, Municipalities held in Strathmore on Nov. 16, 1933, under the chairmanship of Reeve Harry Groves of Bow Valley the delegates were favoured with the following address from the Deputy Minister of Municipal Affairs, Mr. R. English. In addition to having Mr. English at the meeting a number of resolutions were passed. Dealing on the problems of the united Municipalities. One in particular will be of interest to those trucking on a "B" license into the City of Calgary—it asks that Municipalities be given the same power to license trucks using country roads as is given to the Cities to license trucks using the City streets. Inferentially it assumes that if it is right for the Cities to have this right then the Municipalities should also have the same privileges.

Mr. Chairman and Gentlemen—It seems to me that something is missing today in the Government and I know that many of you present will feel the same. I refer to the absence of our own people from the Government. I am a member of the Municipal District of Bow Valley, who has presided at all the meetings I have attended at Strathmore. It is my nature. It does bring to my mind that men who are serving the public are labouring under a very severe strain, and as we must have done and have been so labouring during the past three or four years. I am sure the calls upon you, as with Municipal officials have increased enormously during this time of depression, and many sacrifices have had to be made, almost to the extent of neglect of our own personal affairs, for those of the public I also feel that possibly there is not a realization in the public mind of these sacrifices, should a justifiable criticism is made of men of public affairs, possibly due to misunderstandings, information or possibly it may be due to the conditions through which we are passing.

I fully appreciate that the taxpayer today has his worries also. With depressed prices of farm products and some cases increased burdens of taxation, the taxpayer might be excused for making criticisms. I think we must admit that the conditions under which we are living are such as to disturb even a very peaceful mind, and we are apt to be a little bit under these conditions that we would never say, or think of under normal conditions.

However, all we can do is to continue to give loyal service and to endeavour to deal with our problems in a manner calculated to give the best results to all citizens. I am certain, I would be very sorry indeed if men holding public positions should reach the stage where they would give up and give up hope for the future. It may not occur to you gentlemen, but I have had one or two instances where Councils have almost given up in despair because of the difficulty in financing both Municipal and School requirements, and threatened to resign. That to my mind would be a disaster, and might have a very serious effect upon administrations in general. My message therefore, is that notwithstanding our sacrifices, and notwithstanding criticism, all we can do is to continue to labour as honestly and faithfully as we are able. I do that our efforts will prove beneficial, and that we will emerge successfully and be the better prepared to consider future problems as a result of our experience in dealing with present day problems.

We have just contacted the Municipal Statistics which form part of the Annual Report of the Department of Municipal Affairs, and it is indeed gratifying to me as it will be to you gentlemen, to find that even in these trying times the Municipalities of this Province are to be congratulated upon the splendid position generally speaking in which the Municipalities find themselves at the present time. The Report will show that the Municipalities as a whole reduced their indebtedness to the Banks from some \$180,000,000 to approximately \$100,000,000 during the period December 31, 1931 to December 31, 1932.

Another very significant disclosure in the report is that the Municipalities reduced the expenditure for public works from two and a half million dollars in 1931 to a million and a half dollars in 1932, although the levy in 1932 was actually less than the levy in

ALBERTA MASTER FARMERS

Congratulations are due to two farmers of the Edmonton district for having been awarded the Master Farmer's Medal for 1932. The winners who have won this distinction this year are Mr. Charles Ellett, who farms 12 miles south east of Edmonton, and Mr. W. S. Walker, who farms the district these days west of Edmonton. The master farmer movement came to Western Canada last year and has since the medium of the North-West Farmer of Winnipeg, and a number of Alberta farmers have been awarded the medals, which is a very high honor. In the opinion of the board of judges, have been outstandingly successful as farmers and citizens. The winners for 1933 have been selected from among many years. Mr. Ellett, who in his youth was a jewelry salesman in London, England, homesteaded on his present farm location nearly fifty years ago. Mr. Walker, a native of Aberdeen, Scotland, came to West Canada in 1895 and has since been a fine farm home at Winterburn, near Edmonton.

SUCCESSFUL BACON MEETINGS

Farmers in general are showing a keen interest in the meetings now being held throughout this part of Alberta to promote the better bacon hog raising industry. The meetings are being held under the auspices of the provincial department of agriculture in co-operation with the federal department in raising the percentage of set bacon type hogs produced in Alberta. Stress is being laid on the fact that it is not necessary to name a breed that is needed but a greater proportion of high quality hogs which are suitable for the British market.

SPORT NOTES

HEARD ALONG

SPORTS BYWAYS

When Jack Pettifer, the over-sized English heavyweight, arrived in the United States, his modesty attracted attention of the sports writers. He admitted that he had much to learn, but said he would do his best against any opponents with whom he was matched. Now, it seems, he has satisfied himself with Jack Kearns, who managed Jack Dempsey, Mickey Walker, and Jackie Fields as world champions. There is no place for modesty in the ballyhoo activities of Kearns who is already trying to convince the public that he will pilot Pettifer to the world's heavyweight championship.

LLOYD TURNER'S TIGERS

WIN FIRST GAME

Vancouver, Nov. 20.—Calgary Tigers started off the new Northwestern Professional Hockey League season here tonight with a 3-1 victory over Vancouver Lions.

Lloyd Turner's rugged Tigers turned in a brilliant performance to turn in their success and it was not until late in the contest that the Lions managed to avert being shut out.

Displaying strength from goal out and balance in every department of play, the prairie boys due to greater experience dominated the play against a fast skating Vancouver lineup that lacked the necessary system to fathom the strong Calgary defence.

Led by the foxey former National league star, Norman (Hutch) Gainer, Tigers put in two goals in the first period and added another midway through the last session to make the victory certain.

Vancouver's little titty came a half minute before the final whistle. In a last desperate attempt to avert a shut out Manager Guy Patrick pulled off goalie Red Hardaker and sent four forwards on the ice.

Mason, Lions' left winger, grabbed the puck from a nole near the corner of the Calgary goal, fought his way around the net and flipped the puck past Red McCusker to save the Lions from a whitewash.

Gainer opened the scoring four minutes after the opening of the first period. Taking a bonny snuck in between the goalposts, Gainer's shot was completely fooled by the skidding disc. Play that put Tigers two up: Returning to the game from the penalty box, Gainer took Houbreg's pass from the Calgary blue line, pulled the Vancouver defence out of position and passed to Houbreg who slammed in Tiger's second tally.

Lions stepped up the pace in the middle frame but a perfect defence sent them back scoreless while Tigers taking advantage of breaks, slammed eleven shots at Hardaker. McCusker was not called on to make a single save during the period.

Bill Hutton clinched the victory half way through the last period when his bullet drive from the Vancouver blue

line whizzed past Hardaker.

For the balance of the period Lions held the edge of play and swarmed in on McCusker from all angles but failed to score until the final minute.

Changing his front lines repeatedly Patrick hurled a furious onslaught but again a perfect working defence turned back the coast town's attacks. While the Lions flashed brilliantly in skating, they were outmanned by the clever Calgary defence.

Gainer played a remarkable game in piloting the Tigers to their triumph. His pivot playing that made him famous in Boston as a member of the Bruins was outstanding. In fact the entire Calgary team starred.

During the contest Tigers had 24 shots on Hardaker while McCusker was only called upon to make 12 stops.

The opening game that marked the return of pro hockey here, was enjoyed by a fair sized turnout, even though the local team was forced to defeat.

MAX BAER SAYS THOUGHTS ARE NOT FOR PRETTY WAITRESS

Oakland, Calif. (UPI)—Though Max Baer, heavyweight fighter, came here Thursday to give a deposition in a \$250,000 breach of promise suit brought by Olive Beck, waitress, he declared his thoughts were all for somebody else.

He, who recently tried his hand as motion picture actor, was in comment on the sudden arrival of his former wife, Dorothy Donahue Baer, from Los Angeles.

His remark concerning his thoughts was not directed at any one in particular. He admitted, however, he expected to meet Edna Dunham, New York divorcee, whom he met in that city recently in San Francisco some time next week.

She's swell, the curly haired fighter declared.

Two other makes of cars could not match the speed of the V-8 or were forced out by mechanical troubles. This race demonstrates the remarkable durability of the Ford V-8 and shows why the trend is definitely toward this type of motor.

All previous records for the famous Elgin National Road Race were smashed by the Ford V-8. It covered 203 miles at an average speed of 80.22 miles per hour. On the straightaway it attained the phenomenal speed of 100.3 miles per hour!

The race was conducted and sanctioned by the American Automobile Association. The picturesque but treacherous course of concrete, macadam and gravel had four sharp turns and a hairpin.

The "Dream Car" of the Future

The illustration above portrays the Aero-Dynamic Research Institute's idea of what our automobile will eventually look like. It does not represent a model for production by any manufacturer, but created upon a commission at the Detroit Exposition of Progress, this week.

The true "aerodynamic" streamline design which practically eliminates wind resistance, giving more miles per gallon fuel consumption and less riding comfort in both front and rear seats.

As the Aero-Dynamic Engineer sees the automobile of the future. Plenty of room for three in the front seat, through streamlining of the car, which eliminates all such side obstructions as light, window runners, etc.

PRESIDENT ROOSEVELT WILL ENDEAVOR BIG SAVING

The Rocky Mountain American says the issue of \$1,500,000,000 in new money and pay off the Fourth Liberty Loan. This will save the taxpayers \$5,000,000 a year in interest, and only those in debt to pay off their obligation in dollars of equal value as when the debt was created, says Senator G. W. Norris in a wire to the president. —Editorial note— We only need our minds refreshed to recall we all bought of this issue by another machine made money until it hurt, only to be overtaken by another machine made money panic that forced us to sell these same Liberty Bonds below their par value. Now in whose hands are those bonds today? The writer sold some as low as \$75. I dare say few remain in the hands of the original purchaser. The present holder cleans up the difference.

GOAD TO LIBERAL THOUGHT

The Lethbridge Herald Nearly 50,000 votes cast for the C. C. F. Socialist candidates in the B. C. elections recently should be a goad to the Liberal party to study the problems of the present economic situation to the end that the solution of the problems presented may be one which will provide the greatest good for the greatest number.

C. C. F. speakers have been talking about the two Conservative parties, taunting the Liberals that they are little different from the Conservatives. Seeing that it was the Liberals who 100 years ago, were the true reformers, the men who fought for and secured the extension of the ballot, representation by population and the extinction of the Tory Family Compact, Socialist taunts against the Liberals are little in history to support them. At the same time, the Liberal party must live up to its name and tradition. It is not the Liberal-Conservative party as the Tories so like to call themselves. It is and must be the party of real liberalism. Not the party which looks for its orders to St. James Street, but the party which looks to the common good of all—a party of free trade, a party which notices the public against the makers of high finance, a party which will implement insurance into force as it put old age pensions into force; a party of the people and for the people.

Liberals can follow this path without being willing to set up a dictatorship of the Socialists in which each man's job will be dictated by the State and in which the State must, if Socialist promises are to be made good, direct the lives of each of us. The great mass of the people of Canada are absolutely opposed to the autocratic effect of such a dictatorship. On the other hand, they are equally opposed to the dictatorship of special privilege such as obtains in the present Ottawa regime, a dictatorship which fights the entry of British goods in pay for Canadian wheat with every means, fair or foul. The Liberals of Canada may expect to form the next government at Ottawa. Enough has been disclosed of the Liberal platform to indicate that the party is ready to go a long way in carrying out a policy for the good of the masses. That platform will not be radical enough for the Socialists. It will not please St. James Street either. But it will appeal to the great majority of the people, who believe there is a sane middle course between the extreme right and the extreme left.

THE BACON TRADE WITH ENGLAND

Some two or three weeks ago I delivered an address before the Calgary Board of Trade on the question of the Ottawa Trade Agreements, and particularly as it applies to the Bacon Trade in Canada. The Calgary Albertan made a very full report of my remarks, particularly as they thought they would be of interest to the hog raisers of this country. As a matter of fact, when presenting my remarks to the Board of Trade I endeavored to point out the favorable position which Canada occupies today in the matter of marketing bacon in England, as compared with any other country in the world; not excepting the other dominions owing to the fact that, with the exception of Ireland, none of the other Dominions are in a position to supply bacon to England, and Ireland, as you know is at the disadvantage of being obliged to pay a duty of 30 per cent at values.

The Ottawa agreement is for a period of five years. During that period of five years we are assigned a maximum of 250 million pounds of bacon which we can export to Britain in any one year. This year we will probably export 70 million pounds from Canada, or about 25 per cent of that amount.

The Ottawa agreement gives to the Canadian hog producer exactly the same consideration as is given to the British hog producer; that is, a protected market so far as the importation of a surplus of foreign goods is concerned. It is Canada's one great opportunity to develop our hog industry and thereby secure the English market for all time against foreign competitors.

It was in the hope of putting the situation before the public in such form as would be easily understood that I discussed at such length the bacon industry.

Yours very truly
JOHN BURNS

SUNSHINE RELIEVES ALBERTA SUFFERING

Always generous in their response to appeals in behalf of the distressed, the people of Alberta recognize that this winter will witness a greater need than ever before. Various causes, which are so well known, that they do not require stressing, are perpetuating a condition which is probably the most tragic in the history of the province. Thousands of persons will have to be assisted with food, clothing and the other necessities of life. Everyone who can help with cash donations, with food, clothing, boots and shoes, fuel or anything else which can be used in the household, is earnestly invited to contribute.

An organization which has labored faithfully for twenty years to make easier the lot of those who are sick or destitute is the Calgary Herald Sunshine Society, which operates throughout the year and which makes a special effort to take comfort to those in distress at Christmas time when it distributes hundreds of hamper. Last Christmas it sent out close to 400 splendid hampers.

So far this year Sunshine has added more than 24,475 persons, in Calgary and Southern Alberta, the great majority being children. These are cases for which relief is not available from other sources. Through its own records, those of the Bureau of Dominion Exchange, and the cooperation of rural municipal authorities, over-lap is not avoided against the fact every case is investigated and dealt with on its merits. Sunshine makes sure that every cent that is contributed for relief is expended wisely for this purpose.

Sunshine appeals for help so that it may carry on its work. Cash is especially welcome but if this cannot be

The Danish Ladies Aid held their annual bazaar last Friday. Coffee was served during the afternoon and a bazaar supper in the evening.

The junior and senior W I G Club sold their first social afternoon by entertaining their mothers, members of the institute and the teachers. Mrs Clark from Chum was present. A delicious lunch was served which was made entirely by the girls themselves. The Women's Institute is holding a wheel drive in the U F A hall on Tuesday. During the evening the

ALBERTA'S OPPORTUNITY

in the **British Bacon Market**

The Key to This Market is Quality

For the first time in history the World's Greatest Bacon Market has granted a definite quota to Canadian Bacon Producers, under Controlled Imports to Assure a Steady Market. Canada's quota is 280,000,000 lbs. annually.

Not More Hogs, but Better Hogs

Alberta was second in 1932 among all provinces in total hog marketing, but only eight hogs in every 100 marketed were suitable for the British trade.

What is needed is not greater numbers, but a greater proportion of the Select British Type required by the British Market.

Policies to Encourage Production of High Quality Bacon Hogs Suitable for Overseas, have been adopted by the Alberta Department of Agriculture in cooperation with the Federal Government, Railways and Packers. These include bono housing and exchange of off-type sows by the farmers for selected gilts from the packing plants.
